Vijay Kumar

Senior Product Manager- Enterprise Platforms (Corporate IT & Workflow)

linkedin.com/in/vshn | vijayshagunkumar.github.io

PROFESSIONAL SUMMARY

Senior Product Manager with 20+ years building **enterprise web-based workflow platforms** and delivering measurable customer value — from 0→1 launches to large-scale modernisation across 6+ industries and 3 continents. Uniquely combines product leadership with a Master's in Finance to build rigorous business cases and drive cost optimisation (delivered **$50K+ annual savings** at Dell).

Deep expertise representing the customer in every product decision — combining direct discovery, usage telemetry, and operational insight to translate pain into precise problem statements and testable hypotheses. Drives **structured product discovery** before committing to delivery and rigorously validates that shipped features create **measurable value**.

Built India's first subscription OTT platform (BigFlix) and first organised music retail chain (Planet M). Led Dell's global Indirect Tax technology portfolio processing **300K+ transactions/year** across 100+ countries. Delivered **13+ enterprise SaaS workflow platforms** for clients across India, South America, and Japan.

Proven track record influencing senior stakeholders, aligning global cross-functional teams, **coaching junior product managers** on problem framing and prioritisation, and thriving in multicultural distributed environments.

KEY IMPACT

300K+ Transactions / Year	**99.6%** Processing Efficiency	**10M+** Records Migrated
100+ Countries Coverage	**$50K+** Annual Cost Savings	**20+** Years Experience

DOMAIN EXPERTISE

- **Enterprise Workflow Platforms**
- **Tax & Finance Technology**
- **Artificial Intelligence**
- **OTT & Digital Commerce**
- **Hospitality**
- **Retail & Inventory Management**
- **Automotive & Forestry**

Agile & Delivery
Azure DevOps · Jira · Scrum · Kanban · Sprint Planning

Enterprise Platforms
Oracle Fusion · TR OneSource · ServiceNow

Dev & Integration
Python · REST APIs · Postman · Swagger · GitHub · Middleware

PROFESSIONAL EXPERIENCE

Dell Technologies *Apr 2021 – Present*

Senior Product Manager — Enterprise Platforms · *Bengaluru*

Lead product vision, strategy, and roadmap for Dell's global Indirect Tax platform — 10+ applications, 300K+ annual transactions across 100+ countries. Represent the customer to Agile teams; translate business needs into prioritised backlogs and scalable solutions.

Own end-to-end lifecycle from discovery and PRDs to delivery, validation, and optimisation — including defining success criteria before development begins and identifying when to continue, change, or stop initiatives based on evidence.

- **Customer-Centric Product Discovery:** Represented the customer in every product decision using user interviews, transaction data, and operational insights; translated complex tax and finance workflows into clear problem statements, hypotheses, and validated solutions—ensuring strong product-market fit and measurable business value.
- **Product Strategy & Roadmap Ownership:** Defined product vision and strategic priorities for a global tax platform suite; translated strategy into roadmap, prioritized backlog, and outcome-driven delivery plans aligned with business impact, adoption, and scalability.
- **Agile Delivery & Engineering Partnership:** Led distributed Agile teams across US, EMEA, LATAM, and APJ; partnered closely with engineering to define scope, architecture implications, and trade-offs while maintaining a clear, prioritized backlog and ensuring predictable, high-quality delivery.
- **Global Program Execution & Modernization:** Led large-scale initiatives including CERTifyTax implementation and 10M+ data migration to Thomson Reuters OneSource Cloud; contributed to Oracle Fusion ERP rollout, ensuring alignment with global stakeholders and business objectives.
- **Outcome-Driven Execution & Metrics:** Established success metrics for adoption, performance, and operational efficiency; leveraged telemetry and analytics to validate product decisions, optimize features, and ensure delivered capabilities solved intended business problems.
- **Cross-Functional Stakeholder Alignment:** Collaborated with Finance, Tax Operations, Audit, and Legal teams globally to gather requirements, align on priorities, and resolve trade-offs; influenced senior stakeholders through structured communication, data-backed insights, and clear product narratives.
- **Tax Exemption Management Platform (0→1 Product):** Led end-to-end product development from discovery to launch, building a global exemption management platform enabling seamless data integration, search, and compliance workflows across regions.
- **Enterprise Workflow & Compliance Solutions: Designed and launched India TCS compliance portal as an external workflow tool, improving vendor experience and enabling seamless regulatory compliance outside enterprise boundaries.**

  Performance Optimization & Business Impact: Built simulation-based optimization platform improving processing efficiency by 99.6%, enhancing system scalability, and delivering measurable cost savings and operational improvements.

YsecIT Softwares Pvt Ltd *Jan 2017 – Sep 2020*

IT Project Manager / Product Lead · *India · South America · Japan*

- Delivered **13+ enterprise web-based workflow platforms** — retail, finance, automotive, forestry, and cross-border trade — for clients across India, South America, and Japan.

- Conducted **end-to-end product discovery**: stakeholder workshops, workflow analysis, **high-fidelity wireframes and prototypes** to validate product bets before engineering investment.
- Built **business cases** and financial justification for product investments; coordinated with sales, operations, and customer success teams to ensure market fit.
- Managed full **Agile delivery lifecycle** ensuring **roadmap predictability** and quality — sprint planning, backlog prioritisation, acceptance criteria, and release coordination across multicultural distributed global teams.

Reliance Entertainment — BigFlix *Dec 2007 – Oct 2014*
Chief Manager — Technology · *Mumbai*

- Built and launched BigFlix — **India's first subscription OTT platform** — end-to-end: subscription management, billing, content workflows, and analytics.
- Defined **product roadmap** from customer behaviour and market insights; established metrics tracking adoption, engagement, and revenue.
- Aligned cross-functional stakeholders across technology, marketing, content, and operations to deliver at scale.

The Times Group — Planet M *Feb 2002 – Nov 2007*
Assistant Manager — IT · *India*

- Delivered nationwide rollout of POS and inventory systems across Planet M — India's first organised music retail chain — 100+ stores in 20+ cities.
- Built centralised platforms for inventory, pricing, and reporting; translated business workflows into system requirements at scale.
