

VIJAY KUMAR

Senior Director / VP – Product Management

Mumbai, India | Open to Global Roles | +91-7738774442 | vijay.shagunkumar@gmail.com | [linkedin.com/in/vshn](https://www.linkedin.com/in/vshn)

PROFESSIONAL SUMMARY

Product leader with 20+ years of experience building and scaling enterprise platforms, driving digital transformation, and launching Zero-to-One products across global markets. Known for building scalable enterprise platforms that simplify complex compliance, workflow, and operational challenges across global organizations.

Led enterprise modernization initiatives involving Oracle Fusion ERP, TR OneSource Cloud, CERTifyTax, middleware transformation, and large-scale compliance platform evolution. Delivered measurable outcomes — 99.6% processing efficiency improvement, \$50K+ annual cost savings, zero-downtime migration of 10M+ records, and platforms supporting 100+ countries and 150 tax jurisdictions.

Experience delivering enterprise platforms and modernization programs across India, South America, Japan, US, EMEA, LATAM, and APJ regions. Combines consumer product depth — India's first subscription OTT platform — with enterprise platform leadership at global scale.

CAREER HIGHLIGHTS

- 99.6% efficiency gain** — achieved 99.6% processing efficiency improvement and \$50K+ annual cost savings through cloud-based transaction simulation platform, optimizing 300K+ annual transactions at Dell.
- 10M+ records migrated** — executed zero-downtime migration of 10M+ exemption records with full SOX compliance during Dell's global finance modernization to Oracle Fusion / TR OneSource Cloud.
- Global compliance scale** — architected middleware tax enrichment layer integrating 100+ enterprise applications across US, EMEA, LATAM, and APJ — supporting 100+ countries, 150 tax jurisdictions.
- Zero-to-One OTT** — built BigFlix end-to-end — subscriptions, billing, CMS, CRM, and distribution — India's first subscription OTT platform.
- 10+ platforms delivered** — delivered 10+ enterprise SaaS platforms across automotive, retail, forestry, and cross-border trade for international clients in South America and Japan.

Execution: PRDs & Journey Mapping, User Research, Product Analytics & KPIs, A/B Testing, APIs & Integration Architecture, Cross-functional Leadership

AI & Emerging Tech: Generative AI Workflows & Prompt Engineering, AI-Assisted Product Experiences, OpenAI API, Claude API, Oracle Fusion ERP, TR OneSource, Vertex, Sabrix, CERTifyTax

Tools: Jira, Confluence, Miro, Figma, SQL, Python, Power BI, Tableau, Postman, REST APIs, XML, EDI

EDUCATION

Master of Commerce (Finance) | Manipal University Jaipur | 2023–2025 | CGPA 8.36 / 10

Bachelor of Commerce | University of Delhi | 2001

PROFESSIONAL EXPERIENCE

Senior Advisor, Product Management (IT)

Apr 2021 – Present

Dell Technologies | Bengaluru, India

Global Indirect Tax technology ecosystem — 10+ enterprise applications, 100+ countries, 150 tax jurisdictions, 300K+ annual transactions.

- Owned product strategy, roadmap prioritization, OKR frameworks, and platform evolution for Dell's global tax and compliance ecosystem supporting enterprise finance operations across 100+ countries.
- Architected Middleware Tax Enrichment Layer integrating 100+ enterprise applications with Sabrix tax engine, eliminating fragmented country-level implementations and reducing engineering dependency at global scale.
- Designed centralized workflow and business-rule orchestration capabilities enabling scalable, reusable compliance operations across enterprise systems.
- Built Zero-to-One Tax Exemption Management Platform covering global exemption workflows, certificate validation, and tax engine integration at enterprise scale.
- Delivered transaction-level diagnostics, observability, and root-cause analysis platform instrumented with generative AI tooling for data-driven decision making — significantly reducing resolution time for Finance and Operations teams worldwide.
- Led global CERTifyTax rollout integrated with TR OneSource Cloud across US, EMEA, LATAM, and APJ — in partnership with Deloitte and Thomson Reuters.
- Executed zero-downtime migration of 10M+ exemption records with full SOX compliance as part of Oracle Fusion ERP rollout and on-prem to cloud modernization.
- Built cloud transaction simulation platform delivering 99.6% processing improvement and \$50K+ annual cost savings across 300K+ annual transactions.
- Presented modernization progress, platform strategy, and operational updates to senior leadership and global stakeholders across Finance, Tax, and Technology organizations.
- Designed India TCS Compliance Portal enabling external vendor onboarding, invoice uploads, and tax rebate workflows outside the Dell network.

IT Project Manager

Jan 2017 – Sep 2020

YsecIT Softwares Pvt Ltd | Bengaluru, India

Delivered 10+ enterprise SaaS platforms across retail, logistics, cross-border trade, and operations management for international clients in South America and Japan.

- Delivered automotive import/export ERP (Yoko ERP) for Global Trading Japan — dealer onboarding, compliance workflows, shipment tracking, and full document processing lifecycle.
- Built POS and inventory management platforms for South American retail chains — Promax (electronics) and DaVinci (electronics, gaming, accessories, apparel) — covering multi-store sync, pricing workflows, and barcode management.
- Developed Forest Management platform (Greenwood World), Restaurant Management platform, and enterprise asset tracking systems across multiple client verticals.
- Conducted stakeholder discovery workshops and translated business needs into structured roadmaps, PRDs, and technical specifications for global client delivery.

Key platforms: Promax POS & Inventory, DaVinci HOS/POS, Yoko ERP (automotive import/export), Forest Management, Restaurant Management, Asset Management.

Founder/Partner

Nov 2014 – Dec 2016

E-Creation Multimedia | New Delhi, India

Founded venture to transform educational books into interactive digital and multimedia learning formats.

- Collaborated with publishers and educators to design accessible digital content experiences, enhancing learning reach and engagement.
-

Chief Manager, Technology

Dec 2007 – Oct 2014

Reliance Entertainment — BigFlix | Mumbai, India

India's first subscription OTT platform — product and technology from Zero-to-One launch through national scale.

- Built the complete OTT ecosystem from scratch: subscriber onboarding, billing, content discovery, recommendations, CRM, and digital distribution infrastructure.
- Developed CMS for content ingestion, metadata management, pricing, promotions, and release scheduling; built BI dashboards for platform analytics and user engagement.
- Implemented Talisma CRM for support operations, campaign management, and user segmentation; integrated Focus RT ERP and POS for nationwide retail fulfilment across India.
- Received 117% variable payout in recognition of successful national systems implementation across the OTT and retail network.

Assistant Manager, IT

Feb 2002 – Nov 2007

Times Group — Planet M | New Delhi, India

Technology platform for India's first organized music retail chain — 100+ stores, 20+ cities.

- Led rollout of Retail Pro POS and inventory systems across 100+ stores, migrating legacy FoxPro systems and establishing end-to-end SKU lifecycle management and marketplace fulfilment integration.
- Built real-time stock, pricing, and inter-store movement tracking — enabling centralized inventory visibility and financial reconciliation across the national retail network.

SIDE PROJECTS

- **PromptCraft** — Built PromptCraft, an AI workflow and prompt optimization studio exploring structured prompt engineering, AI-assisted workflows, and Generative AI product experiences — demonstrating applied GenAI product thinking. Live at prompt-crafter-pro.pages.dev.
- **Saarthi Yoga** — Designed Saarthi Yoga, a digital wellness platform showcasing scalable content architecture, structured discovery of yoga practices, and accessible UX design.
