VIJAY KUMAR

Product Leader — Consumer Commerce, Marketplace Platforms & Enterprise Systems

Mumbai / Bengaluru, India | +91 7738774442 | vijay.shagunkumar@gmail.com

LinkedIn: linkedin.com/in/vshn | GitHub Portfolio: vijayshagunkumar.github.io

PROFESSIONAL SUMMARY

Accomplished Product Leader with 20+ years building enterprise platforms across tax technology, OTT, retail commerce, and cross-border SaaS — spanning India, South America, and Japan. Currently leading Dell Technologies' global Indirect Tax product portfolio: 10+ internally built applications supporting tax compliance across 100+ countries and 150 tax jurisdictions, processing 300K+ transactions annually.

Played a key role in Dell's enterprise finance modernization — Oracle Fusion ERP, TR OneSource Cloud, and CERTifyTax — executing a zero-downtime migration of 10M+ customer exemption records. Earlier built India's first OTT (BigFlix full-stack: CMS, eCommerce, CRM), led 100+ store POS rollouts (Planet M), and delivered 10+ SaaS platforms across South America and Japan.

Deep expertise in enterprise platform architecture, tax compliance systems, ERP integrations, and large-scale digital product delivery. Recognized for driving innovation, operational excellence, and cross-functional execution across globally distributed teams.

IMPACT SUMMARY: 100+ countries | 150 jurisdictions | 99.6% perf gain | $50K+ Cloud savings | AI-modernized | OTT pioneer

PRODUCT LEADERSHIP HIGHLIGHTS

- Global platform scale: 300K+ annual transactions, 10M+ records migrated with zero downtime, 150 tax jurisdictions covered
- 0->1 product launches across OTT media (BigFlix), enterprise tax systems (Dell), retail POS (Planet M), and cross-border trade ERP (South America, Japan)
- End-to-end product ownership: strategy, OKR definition, PRD creation, engineering delivery, and operational support
- Cross-functional leadership across engineering, finance, compliance, and global vendor ecosystems
- Multi-industry platform expertise: tax compliance, OTT, retail POS, automotive ERP, forestry, restaurant management, eCommerce, and CRM across 3 continents

SELECTED PRODUCT IMPACT

- 99.6% performance improvement for a global financial transaction platform (Dell)
- 10M+ enterprise records migrated with zero downtime and full SOX compliance (Dell)
- $50K+ Cloud OpEx reduction through cloud-based transaction simulation platform (Dell)
- 300K+ annual transactions optimized via simulation platform (Dell)
- 150 tax jurisdictions and 100+ countries enabled through global rollout of CERTifyTax tax exemption platform (Dell)
- 100+ retail stores enabled with new POS & Inventory systems (Times Group, YsecIT)
- 20+ cities covered in national platform rollout (Times Group)

CORE COMPETENCIES

- **Product Strategy & Execution:** Product Vision & Roadmapping, 0->1 Product Launch, Agile & Scrum Methodologies, Cross-functional Leadership, User Research & Discovery
- **Product Analytics & Data:** A/B Testing & Experimentation, Funnel & Conversion Optimization, Engagement & Retention Analytics, Metrics-Driven Development, Data Analysis (SQL)
- **Platforms & Domains:** E-commerce & Marketplaces, Retail POS & Inventory Management, Enterprise Systems (ERP/CRM), Financial & Compliance Platforms, API & Integration Strategy

EDUCATION

- Master of Commerce (Finance), CGPA: 8.36 / 10 — Manipal University Jaipur
- Bachelor of Commerce — University of Delhi

PROFESSIONAL EXPERIENCE

Dell Technologies | Bengaluru, India *Apr 2021 – Present*

Senior Advisor — Product Management (IT)

Key Responsibilities:

- Own product vision, strategy, roadmap, and OKR frameworks for Dell's global Indirect Tax technology platform suite — 10+ applications processing 300K+ annual tax transactions across 150 tax jurisdictions worldwide.
- Drive end-to-end product delivery across requirements gathering, PRD creation, engineering leadership through development/QA/deployment, and post-go-live support. Led two cross-functional engineering teams; executed zero-downtime migration of 10M+ exemption records as part of Dell's global ERP modernization.

Key Achievements:

- **Middleware Tax Enrichment Layer:** Architected and delivered a proprietary middleware enrichment layer between 100+ enterprise applications and the Sabrix tax engine — eliminating costly individual application changes for every new global tax rule across 100+ countries — saving millions in annual vendor and re-engineering costs across a 100+ application estate.
- **Tax Exemption Management Platform (0->1):** Built Dell's internal exemption certificate management product from scratch — enabling upload, storage, search, and tax engine DB integration for customer exemptions globally.
- **Tax Diagnostics, RCA & Observability:** Delivered a transaction-level diagnostic and observability platform for root cause analysis of tax determination errors, instrumented with generative AI tooling for data-driven decision making — significantly reducing resolution time for Finance and Operations teams.
- **India TCS Compliance Portal:** Designed and launched an externally accessible vendor portal for India's Tax Collection at Source regulation, enabling Dell vendors to upload invoices and claim tax rebates outside the Dell network.
- **CERTifyTax Global Rollout:** Led global implementation and integration of CERTifyTax with TR OneSource Cloud — including 10M+ customer exemption data migration, vendor management, and training across global business teams.
- **Enterprise Modernization:** Key contributor to Oracle Fusion ERP rollout and cloud migration from on-prem Sabrix to TR OneSource Cloud; led stakeholder alignment across Deloitte, Thomson Reuters, and CERTifyTax vendor with executive-level progress reporting.
- **Performance & Cost Optimization:** Designed a cloud-based financial transaction simulation platform resulting in a 99.6% improvement in processing efficiency, optimizing 300K+ annual transactions and generating $50K+ in annual Cloud OpEx reduction.

Recognition: *Dell Game Changers Award (2023) | Dell Learning Exchange Rockstar (2025)*

YsecIT Softwares Pvt Ltd | Bengaluru, India *Jan 2017 – Sep 2020*

IT Project Manager

Led the end-to-end development and delivery of enterprise SaaS platforms across retail, international trade, logistics, and operational management domains, working closely with global clients to translate business requirements into scalable software products.

Key Achievements:

- **Multi-Domain SaaS:** Delivered POS/inventory for South American retail chains (ProMax/DaVinci), ERP for Japan automotive trading (Global Trading Japan), forestry management (Greenwood World), restaurant operations, and enterprise asset tracking.
- **Customer Discovery:** Conducted stakeholder discovery workshops to convert operational challenges into product requirements, feature roadmaps, and technical specifications.
- **Agile Delivery:** Managed 10+ enterprise SaaS platforms through Agile delivery cycles, product backlogs, and cross-functional engineering teams.

Recognition: *YsecIT Performance Award — 2017*

E-Creation Multimedia | New Delhi, India *Nov 2014 – Dec 2016*

Founder / Partner — Digital Publishing

- **Entrepreneurship:** Founded and partnered a venture to transform educational books into interactive digital and multimedia learning formats, collaborating with publishers and educators to enhance accessibility.

Website: ecreationsmultimedia.com

Reliance Entertainment — BigFlix | Mumbai, India *Dec 2007 – Oct 2014*

Chief Manager — Technology (0->1 Product Launch)

Spearheaded the technology strategy and launch of India's first subscription-based OTT platform, BigFlix, building the foundational systems from the ground up.

Key Achievements:

- **0->1 Platform Build:** Led end-to-end OTT launch including CMS (content upload, scheduling, and reports), eCommerce (subscription platform, recommendation flows, MIS/BI dashboard), CRM (Talisma customer operations), and full content distribution stack.
- **National Retail Integration:** Implemented Focus RT ERP and POS across the national retail network for store-retail fulfilment alignment.

Recognition: *Received 117% variable payout for successful national implementation*

Times Group — Planet M | New Delhi, India *Feb 2002 – Nov 2007*

Assistant Manager — IT

Played a pivotal role in building the technology infrastructure to support the nationwide expansion of the Planet M retail chain.

Key Achievements:

- **Nationwide Rollout & Migration:** Led nationwide Retail Pro rollout and FoxPro migration across 100+ stores and 20+ cities — covering SKU lifecycle management, barcode workflows, catalog setup, and end-user training.
- **Centralized Visibility:** Established centralized inventory visibility with real-time tracking of stock levels, purchase orders, and inter-store movement.

Recognition: *Times Group Double Promotion (2005)*

CERTIFICATIONS & CONTINUING EDUCATION

- Product Management with AI/ML — Duke Corporate Education (10.5 months)
- Google AI Professional Certificate
- Digital Product Management — University of Virginia (Darden)
- AI in Financial Services — Oxford Saïd Business School
- Oracle Cloud & AI Specialization
- IBM Product Manager Professional Certificate
- Leadership Skills — IIM Ahmedabad

Certification Profile: Coursera-2025 | Coursera-2026 | Credly Badges | Accredible Wallet | Skillsoft Wallet

TOOLS & TECHNOLOGIES

- **Product & Collaboration:** Jira, Confluence, Miro, Figma, A/B Testing Frameworks, Funnel & Growth Metrics, SQL
- **Enterprise Platforms:** Oracle Fusion ERP, Thomson Reuters ONESOURCE, Vertex Tax Engine, CERTifyTax
- **Retail & Inventory Systems:** Retail Pro POS, Focus RT Inventory & POS
- **Integration Technologies:** REST APIs, XML, EDI, Middleware Architecture
- **AI & Data:** Generative AI Tools, Prompt Engineering Frameworks

PERSONAL INITIATIVES

- **Built PromptCraft (AI prompt optimization studio)** demonstrating generative AI product and UX design expertise
  prompt-crafter-pro.pages.dev
- **Saarthi Yoga (digital wellness platform)** showcasing scalable content architecture and accessible UX design sites.google.com/view/saarthiyoga/home
