PROFESSIONAL SUMMARY

Accomplished Product Leader with 20+ years of experience building and scaling digital platforms across enterprise tax technology, OTT media, retail commerce, and SaaS ecosystems. Currently leading Dell Technologies' global Indirect Tax product portfolio — 10+ internally built applications supporting tax compliance across 100+ countries and processing 300K+ transactions annually.

Played a key role in Dell's enterprise finance modernization including Oracle Fusion ERP, TR OneSource Cloud, and CERTifyTax, executing a zero-downtime migration of 10M+ customer exemption records. Earlier helped build India's first subscription-based OTT platform (Reliance BigFlix) and contributed to the launch of India's first organized music retail chain, Planet M (Times Group).

Deep expertise in enterprise platform architecture, tax compliance systems, ERP integrations, and large-scale digital product delivery. Recognized for driving innovation, operational excellence, and cross-functional execution across globally distributed teams.

PRODUCT LEADERSHIP HIGHLIGHTS

- Global platform scale: 100+ countries, 300K+ transactions annually, 10M+ records migrated with zero downtime
- 0→1 product launches across OTT media, enterprise tax systems, and retail commerce platforms
- End-to-end product ownership: strategy, OKR definition, PRD creation, engineering delivery, and operational support
- Cross-functional leadership across engineering, finance, compliance, and global vendor ecosystems
- Cloud migration, ERP modernization, and generative AI integration across enterprise-scale platforms

SELECTED PRODUCT IMPACT

- 99.6% performance improvement for a global financial transaction platform (Dell)
- 10M+ enterprise records migrated with zero downtime and full SOX compliance (Dell)
- $50K+ annual cost savings through cloud-based platform optimization (Dell)
- 300K+ annual transactions optimized via simulation platform (Dell)
- 100+ countries and 150 tax jurisdictions enabled through global rollout of the CERTifyTax tax exemption platform (Dell)
- 100+ retail stores enabled with new POS & Inventory systems (Times Group, YsecIT)
- 20+ cities covered in national platform rollout (Times Group)

CORE COMPETENCIES

- **Product Strategy & Execution:** Product Vision & Roadmapping, 0→1 Product Launch, Agile & Scrum Methodologies, Cross-functional Leadership, User Research & Discovery
- **Product Analytics & Data:** A/B Testing & Experimentation, Funnel & Conversion Optimization, Engagement & Retention Analytics, Metrics-Driven Development, Data Analysis (SQL)
- **Platforms & Domains:** E-commerce & Marketplaces, Retail POS & Inventory Management, Enterprise Systems (ERP/CRM), Financial & Compliance Platforms, API & Integration Strategy

TOOLS & TECHNOLOGIES

- **Product & Collaboration:** Jira, Confluence, Miro, Figma, A/B Testing Frameworks, Funnel & Growth Metrics, SQL
- **Enterprise Platforms:** Oracle Fusion ERP, Thomson Reuters ONESOURCE, Vertex Tax Engine, CERTifyTax
- **Retail & Inventory Systems:** Retail Pro POS, Focus RT Inventory & POS
- **Integration Technologies:** REST APIs, XML, EDI, Middleware Architecture
- **AI & Data:** Generative AI Tools, Prompt Engineering Frameworks

PROFESSIONAL EXPERIENCE

Dell Technologies | Bengaluru, India ***Apr 2021 – Present***

Senior Advisor — Product Management (IT)

Lead product vision, strategy, roadmap, and OKR frameworks for Dell's global Indirect Tax technology platform suite — 10+ internally developed applications processing 300K+ annual tax transactions across 100+ countries. Drive end-to-end product delivery: gathering requirements from Finance, Sales, Business, and Operations teams; translating them into PRDs and technical specifications; leading engineering teams through development, QA, and production deployment; and providing post-go-live support. Led two cross-functional engineering teams and drove a zero-downtime migration of 10M+ exemption records as part of Dell's global ERP modernization.

Key Achievements:

- **Middleware Tax Enrichment Layer:** Architected and delivered a proprietary middleware enrichment layer between 100+ enterprise applications and the Sabrix tax engine — eliminating costly individual application changes for every new global tax rule across 100+ countries and saving millions in vendor and engineering costs.
- **Tax Exemption Management Platform (0→1):** Built Dell's internal exemption certificate management product from scratch — enabling upload, storage, search, and tax engine DB integration for customer exemptions globally.
- **Tax Diagnostics, RCA & Observability:** Delivered a transaction-level diagnostic and observability platform for root cause analysis of tax determination errors, instrumented with generative AI tooling for data-driven decision making — significantly reducing resolution time for Finance and Operations teams.
- **India TCS Compliance Portal:** Designed and launched an externally accessible vendor portal for India's Tax Collection at Source regulation, enabling Dell vendors to upload invoices and claim tax rebates outside the Dell network.
- **CERTifyTax Global Rollout:** Led global implementation and integration of CERTifyTax with TR OneSource Cloud — including 10M+ customer exemption data migration, vendor management, and training across global business teams.
- **Enterprise Modernization:** Key contributor to Oracle Fusion ERP rollout and cloud migration from on-prem Sabrix to TR OneSource Cloud; led stakeholder alignment across Deloitte, Thomson Reuters, and CERTifyTax vendor with executive-level progress reporting.
- **Performance & Cost Optimization:** Designed a cloud-based financial transaction simulation platform resulting in a 99.6% improvement in processing efficiency, optimizing 300K+ annual transactions and generating $50K+ in annual cost savings.

Recognition: *Dell Game Changers Award (2023) | Dell Learning Exchange Rockstar (2025)*

YsecIT Softwares Pvt Ltd | Bengaluru, India ***Jan 2017 – Sep 2020***

IT Project Manager

Led the end-to-end development and delivery of enterprise SaaS platforms across retail, international trade, logistics, and operational management domains, working closely with global clients to translate business requirements into scalable software products.

Key Achievements:

- **Multi-Domain Platform Delivery:** Designed and delivered multi-domain SaaS platforms for retail (ProMax/DaVinci — POS & inventory for South American chains), forestry operations, restaurant management, and enterprise asset tracking, enabling centralized operations and reporting across industries.
- **Customer Discovery & Product Definition:** Conducted extensive stakeholder workshops to understand operational challenges and convert them into structured product requirements, feature roadmaps, and technical specifications.
- **Agile Product Delivery:** Managed Agile development cycles, product backlogs, and cross-functional engineering teams to successfully deliver 10+ enterprise SaaS platforms across multiple industries.

Recognition: *YsecIT Performance Award — 2017*

E-Creation Multimedia | New Delhi, India ***Nov 2014 – Dec 2016***

Founder / Partner — Digital Publishing

- **Entrepreneurship:** Founded and partnered a venture to transform educational books into interactive digital and multimedia learning formats, collaborating with publishers and educators to enhance accessibility.

Reliance Entertainment — BigFlix | Mumbai, India ***Dec 2007 – Oct 2014***

Chief Manager — Technology (0→1 Product Launch)

Spearheaded the technology strategy and launch of India's first subscription-based OTT platform, BigFlix, building the foundational systems from the ground up.

Key Achievements:

- **0→1 Platform Build:** Led the complete end-to-end launch of the platform, including architecture, development, and integration of customer onboarding, billing, CRM, and content distribution systems.
- **National Systems Integration:** Implemented and integrated Focus RT inventory management and POS systems across the national retail network, enabling centralized tracking of sales, inventory movement, and financial reporting.

Recognition: *Received 117% variable payout for successful national implementation*

Times Group — Planet M | New Delhi, India ***Feb 2002 – Nov 2007***

Assistant Manager — IT

Played a pivotal role in building the technology infrastructure to support the nationwide expansion of the Planet M retail chain.

Key Achievements:

- **Nationwide System Rollout:** Led the national implementation of the Retail Pro POS and inventory platform across a network of 100+ retail stores and warehouses spanning 20+ cities.
- **Centralized Visibility:** Established systems for centralized inventory visibility, enabling real-time tracking of stock levels, purchase orders, and inter-store movement.

Recognition: *Times Group Double Promotion (2005)*

EDUCATION

- Master of Commerce (Finance), CGPA: 8.36 / 10 — Manipal University Jaipur
- Bachelor of Commerce — University of Delhi

CERTIFICATIONS & CONTINUING EDUCATION

- Product Management with AI/ML — Duke Corporate Education (10.5 months)
- Google AI Professional Certificate
- Digital Product Management — University of Virginia (Darden)
- AI in Financial Services — Oxford Saïd Business School
- Oracle Cloud & AI Specialization
- IBM Product Manager Professional Certificate
- Leadership Skills — IIM Ahmedabad
